

AIM Reusable Packaging

Plastic Corrugated Applications & Reusable Packaging Solutions

OSHKOSH CORPORATION
INSTALLATION STORY

Oshkosh Corporation

Oshkosh Truck Corp. was founded In 1917 from the patents that transformed all-wheel- drive transportation. Today, Oshkosh Defense Corp. is our military's preferred supplier of defense tactical and armored vehicles.

Plenum Side Chamber

AIM Reusable Packaging designed this pack to protect and divide the Plenum Side Chamber. In the process the plastic corrugated pack will save money as opposed to paper corrugated they had been using. Currently using (30) partitions introduced into a 48"x40"x34" tall plastic bulk bin.

Structural Foam Injection Molded Knock Down Container's

Oshkosh Defense uses hundreds of our heavy duty structural foam injection molded container's in their bulk container fleet. Currently using 48"x45"x25", 34",42" & 50" tall, 32"x30"x25", 48"x40"x34" and 57"x48"x45" tall.

Plastic Drum Pallets & Smooth Deck Pallets

75LB.

COMPUTER
DESIGNED

48x48
55 GALLON DRUM PALLET

Oshkosh Corp. is currently using (30) of our 48"x48" 55 gallon drum pallets & (40) 48"x40" smooth deck pallets in their chemical room.

Injection Molded Knockdown Bulk Bins

30"x32"x25" 1,500 lbs. Capacity with (2) drop gates.
Oshkosh Corp. utilizes (90) of these bins for in plant storage, also for closed loop shipping to vendors.

Oshkosh Defense Shock Absorber Project

AIM Reusable Packaging designed this pack to eliminate waste spending on expendable packaging. (60) 48"x45"x42" plastic knockdown bulk bins with (60) plastic corrugated packs to hold (30) parts per bin , part weight 69 lbs. These packs are currently being shipped from Canada to Wisconsin.

Custom **Thermoformed** Plastic Pallets

Custom thermoformed plastic pallets, 49" x 81" with steel reinforcements & fork straps. Currently being used at Oshkosh Defense Corp. to transport Military truck ladders. Using (100+) units in current process.

40"x 48" Plastic Pallets

Injection molded plastic pallets, 48"x40" with 2,200# edge racking load capabilities. Oshkosh Defense is currently using (950) of these pallets in their process shipping raw steel products from Oregon to Wisconsin.
